RESPONSE TO RESTRICTION REQUIREMENT

COMMISSIONER FOR PATENTS
ALEXANDRIA, VIRGINIA 22313

SIR:

In response to the Restriction Requirement stated in the Official Action dated October 31, 2005, Applicants in the above-identified patent application provisionally elect Group I, Claims 1-10, 13 and 279, drawn to a cable for a switch gear transformer.

Furthermore, it is noted that the present application is a National Stage application from a PCT. As a consequence, the unity of invention standards should be applied to the present National Stage application (see e.g. MPEP §1893.03(d)). As the International Search Authority did not separate the claims, therefore concluding that there was a unity of invention, it is respectfully submitted that consistent with the same unity of invention

requirement, the present application should not be subject to a U.S. restriction requirement. Accordingly, Applicants respectfully traverse the restriction requirement.

However, if the present Restriction Requirement is not withdrawn, examination on the merits of the Claims of Group I is believed to be in order, and an early and favorable action to that effect is respectfully requested.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
